SUMMARY

Lead Engineer with 6+ years of experience in payment gateways, enterprise integrations, and merchant onboarding. Skilled in REST APIs, SDKs, e-commerce plugins, integration automation, and cross-functional delivery, with a track record of shortening integration timelines and accelerating reliable merchant go-lives.

EXPERIENCE

Lead Engineer, Enterprise Integrations/Solutions | PhonePe, Bangalore | Sep 2025 - Present

- Led full-lifecycle technical integrations from discovery to go-live as the primary technical owner of an INR 350 Cr annual enterprise portfolio.
- Reduced Mean Time to Integrate (MTTI) from 24 to 18 days (25%), speeding enterprise merchant onboarding while maintaining 100% stable post-launch performance.
- Built AI-assisted automation pipelines and real-time observability dashboards, eliminating 30+ manual processes across solution and integration teams.
- Ran technical discovery workshops for enterprise clients, turning business requirements into scalable API and SDK integration blueprints.
- Delivered enterprise integrations for merchants including Netflix, JioHotstar, IRCTC, MakeMyTrip, redBus, ixigo, Angel One, Zee TV, Meesho, and Zepto, aligning client engineering with internal product and sales teams to resolve delivery blockers early.
- Used merchant feedback and integration metrics to drive API documentation and platform improvements with core engineering and product teams.

Senior Engineer, Integrations | Pine Labs, Bangalore | Jun 2024 - Sep 2025

- Integrated Pine Labs products (Plural and Q-fix) via APIs, SDKs, plugins, and payment solutions for high-GTV merchant platforms processing INR 300-400 Cr/month.
- Facilitated direct and third-party integrations with Juspay, Razorpay, and Cashfree to streamline merchant onboarding and payment processing.
- Created integration SOPs and JIRA-based onboarding checklists, cutting integration time from 45 days to 15 days.
- Led back-end SDK and plugin development; improved developer onboarding by 30% through technical resources and walkthrough videos.

Product Engineer | Simpl, Bangalore | Jul 2023 - Jun 2024

- Customized and integrated PayLater, Pay After Delivery, and Pay-in-3 with merchant platforms via direct integrations and Juspay, supporting INR 100-150 Cr monthly GTV.
- Debugged transactions using Loggly and AWS OpenSearch; designed REST APIs, API contracts, request/response structures, and error handling.
- Built core functionality in JavaScript and React.js and led a searchable documentation portal using Markdown, Swagger, and Poetry.

Solutions Engineer | Razorpay, Bangalore | Mar 2022 - Jul 2023

- Developed JavaScript checkout solutions and plugins for WooCommerce, Shopify, Magento, and WordPress.
- Integrated and debugged REST APIs and SDKs (Python, Java, PHP) for web and mobile applications, including Android and iOS.
- Connected merchant platforms with banks and conducted integration audits, code reviews, and risk analysis.

Associate Engineer (Internship) | Concentrix India, Bangalore | Jul 2020 - Nov 2021

- Analyzed error reports and logs, audited Google Play Store apps, and built workarounds for performance, security, and payment issues.

EDUCATION

B.Tech in Mechanical Engineering | Dayananda Sagar University, Bangalore | 2020

SKILLS

Languages and Web: JavaScript, React.js, Python, SQL, HTML, CSS, Java, PHP

APIs and Integrations: REST APIs, API development, SDKs (incl. Android SDK), API contracts, Swagger, payment gateways, payment systems, merchant onboarding, integration auditing, plugin development

Payments Platforms: Juspay, Razorpay, Cashfree, Pine Labs (Plural, Q-fix), PayLater

E-commerce and Mobile: Shopify, WooCommerce, Magento, WordPress, Android, iOS

Tools: JIRA, Postman, Loggly, AWS OpenSearch, Markdown, Poetry, observability dashboards, process automation

Leadership and Delivery: Engineering management, technical discovery, solution architecture, stakeholder management, cross-functional delivery
